

Instructions

1. Go to the link provided as submission.
2. Go to the file named “**Markov_SIR_Epidemic_Project (3).ipynb**”.
3. Click on open in Colab.
4. Go to Runtime-> run all (All the graphs would be displayed for analyzation).
5. Work with the playable function for the last simulation to view the animation of disease spread between both the graphs throughout the 50 days.
